TIPS FOR SUCCESSFUL P-CARD SUBMISSIONS

How to handle common situations you may encounter as you reconcile P-Card reports in Concur.

Transactions that Don't Populate into an Expense Report

To Resolve:

1. Move the transaction into the appropriate expense report based on post date. The post date is visible by hovering over the transaction.
2. Assign the transaction to the appropriate expense type, entering a "Business Reason", and complete any other required fields.

Concur will start to populate similar spend to the same expense types based on your previous expense reports.

Transactions Pre-Mapped to the Wrong Expense Type

Some transactions automatically added to a report may be pre-mapped to an expense type that isn't appropriate for the spend.

To Resolve:

1. Select a different expense type from the Expense Type drop-down. [Click here to display a list of P-Card expense types.](#)
